## AUTHOR INDEX

Ahlstrom, D. H.
Automatic Gas-Chromatographic Monitoring of Combustion Products, p. 78

Armstrong, G. W.
A Chemical/Mathematical Model for Predicting the Potential Physiological Hazard of a Changing Fire Environment, p. 157

Autian, J.
Toxicology of Polymeric Materials Exposed to Heat and Fires, p. 124

Brosier, J. S.
Toxicological and Environmental Factors Involved in the Selection of Decabromodiphenyl Oxide as a Fire Retardant Chemical, p. 52

Christopher, A. J.
Emission of Smoke and Fumes at Temperatures up to 500 ° C, p. 177

Crummett, W. B.
Toxicological and Environmental Factors Involved in the Selection of Decabromodiphenyl Oxide as a Fire Retardant Chemical, p. 52

De, S. K.
Toxicology of Polymeric Materials Exposed to Heat and Fires, p. 124

Ehrmantraut, J. W.
Toxicological and Environmental Factors Involved in the Selection of Decabromodiphenyl Oxide as a Fire Retardant Chemical, p. 52

Fear, E. J. P.
Emission of Smoke and Fumes at Temperatures up to 500 °C, p. 177

Fear, F. A.
Mass Life Fire Hazard: Experimental Study of the Life Hazard of Combustion Products in Structural Fires, p. 191

Fennell, T. R. F. W.
Emission of Smoke and Fumes at Temperatures up to 500 °C, p. 177

Gehring, P. J.
Toxicological and Environmental Factors Involved in the Selection of Decabromodiphenyl Oxide as a Fire Retardant Chemical, p. 52

Gibbons, C. L.
Toxicological and Environmental Factors Involved in the Selection of Decabromodiphenyl Oxide as a Fire Retardant Chemical, p. 52

Hilado, C. J.
A Bibliography of Published Information on Combustion Toxicology, p. 91
A Bibliography of Published Information on Combustion Toxicology, p. 268

Hofmann, H. Th.
Relative Toxicity of Thermal Decomposition Products of Expanded Polystyrene, p. 236
Further Investigations into the Relative Toxicity of Decomposition Products Given Off from Smouldering Plastics, p. 250

Humiston, C. G.
Toxicological and Environmental Factors Involved in the Selection of Decabromodiphenyl Oxide as a Fire Retardant Chemical, p. 52

Jewett, G. L.
Toxicological and Environmental Factors Involved in the Selection of Decabromodiphenyl Oxide as a Fire Retardant Chemical, p. 52

Kimmerle, G.
Aspects and Methodology for the Evaluation of Toxicological Parameters During Fire Exposure, p. 4

Kishitani, K.
Toxicities of Combustion Products, p. 104

Kociba, R. J.
Toxicological and Environmental Factors Involved in the Selection of Decabromodiphenyl Oxide as a Fire Retardant Chemical, p. 52

Liebmen, S. A.
Automatic Gas-Chromatographic Monitoring of Combustion Products, p. 78

Nakamura, K.
Toxicities of Combustion Products, p. 104

Nauman, C. D.
Automatic Gas-Chromatographic Monitoring of Combustion Products, p. 78

Norris, J. M.
Toxicological and Environmental Factors Involved in the Selection of Decabromodiphenyl Oxide as a Fire Retardant Chemical, p. 52

Nunez, L. J.
Toxicology of Polymeric Materials Exposed to Heat and Fires, p. 124

Oettel, H.
Relative Toxicity of Thermal Decomposition Products of Expanded Polystyrene, p. 236

O'Mara, M. M.
A Comparison of Combustion Products Obtained from Various Synthetic Polymers, p. 141

Pryor, A. J.
Mass Life Fire Hazard: Experimental Study of the Life Hazard of Combustion Products in Structural Fires, p. 191

Quinn, E. J.
Automatic Gas-Chromatographic Monitoring of Combustion Products, p. 78

Rose, J. Q.
Toxicological and Environmental Factors Involved in the Selection of Decabromodiphenyl Oxide as a Fire Retardant Chemical, p. 52

Sand, H.
Further Investigations into the Relative Toxicity of Decomposition Products Given Off from Smouldering Plastics, p. 250

Sanders, C. I.
Automatic Gas-Chromatographic Monitoring of Combustion Products, p. 78

Schwetz, B. A.
Toxicological and Environmental Factors Involved in the Selection of Decabromodiphenyl Oxide as a Fire Retardant Chemical, p. 52

Shabdue, C. L.
A Bibliography of Published Information on Combustion Toxicology, p. 268

Smith, E. E.
Application of the Ohio State University Release Rate Apparatus to Combustion Gas Studies, p. 95

Stewart, R. D.
The Effects of Carbon Monoxide on Man, p. 167

Tirsell, J. B.
Toxicological and Environmental Factors Involved in the Selection of Decabromodiphenyl Oxide as a Fire Retardant Chemical, p. 52

Wheeler, R. J.
Mass Life Fire Hazard: Experimental Study of the Life Hazard of Combustion Products in Structural Fires, p. 191

Woolley, W. D.
The Production of Free Tolylene Diisocyanate (TDI) from the Thermal Decomposition of Flexible Polyurethane Foams, p. 259

## SUBJECT INDEX

Aircraft Materials
Emission of Smoke and Fumes at Temperatures up to 500 °C, p. 177

Allowable Exposure Time
A Chemical/Mathematical Model for Predicting the Potential Physiological Hazard of a Changing Fire Environment, p. 157

Animal Tests
Toxicities of Combustion Products, p. 104

Bibliography, Combustion Toxicology
A Bibliography of Published Information on Combustion Toxicology, p. 91
A Bibliography of Published Information on Combustion Toxicology, p. 268

Building Materials, Toxicity of
Toxicities of Combustion Products, p. 104

Carbon Dioxide
Mass Life Fire Hazard: Experimental Study of the Life Hazard of Combustion Products in Structural Fires, p. 191

Carbon Monoxide
A Comparison of Combustion Products Obtained from Various Synthetic Polymers, p. 141
Further Investigations into the Relative Toxicity of Decompostion Products Given Off From Smouldering Plastics, p. 250
Mass Life Fire Hazard: Experimental Study of the Life Hazard of Combustion Products in Structural Fires, p. 191
Relative Toxicity of Thermal Decomposition Products of Expanded Polystyrene, p. 236
The Effects of Carbon Monoxide on Man, p. 167

Combustion Gases
A Chemical/Mathematical Model for Predicting the Potential Physiological Hazard of a Changing Fire Environment, p. 157

Combustion Gas Studies
Application of the Ohio State University Release Rate Apparatus to Combustion Gas Studies, p. 95

Combustion Products
A Comparison of Combustion Products Obtained from Various Synthetic Polymers, p. 141
Aspects and Methodology for the Evaluation of Toxicological Parameters During Fire Exposure, p. 4
Automatic Gas-Chromatographic Monitoring of Combustion Products, p. 78
Mass Life Fire Hazard: Experimental Study of the Life Hazard of Combustion Products in Structural Fires, p. 191
Toxicities of Combustion Products, p. 104

Crash Fire Condition
Emission of Smoke and Fumes at Temperatures up to 500 °C, p. 177

Decabromodiphenyl Oxide
Toxicological and Environmental Factors Involved in the Selection of Decabromodiphenyl Oxide as a Fire Retardant Chemical, p. 52

Decomposition Experiments
The Production of Free Tolylene Diisocyanate (TDI) from the Thermal Decomposition of Flexible Polyurethane Foams, p. 259

Decomposition Products
Further Investigations into the Relative Toxicity of Decomposition Products Given Off From Smouldering Plastics, p. 250

Effects of Pathophysiology
The Effects of Carbon Monoxide on Man, p. 167

Environmental Factors
Toxicological and Environmental Factors Involved in the Selection of Decabromodiphenyl Oxide as a Fire Retardant Chemical, p. 52

Exposure Chamber
Mass Life Fire Hazard: Experimental Study of the Life Hazard of Combustion Products in Structural Fires, p. 191

Fabrics
Toxicology of Polymeric Materials Exposed to Heat and Fires, p. 124

Fire Environments
A Chemical/Mathematical Model for Predicting the Potential Physiological Hazard of a Changing Fire Environment, p. 157

Fire Exposure
Aspects and Methodology for the Evaluation of Toxicological Parameters During Fire Exposure, p. 4

Fire Hazard, Mass Life
Mass Life Fire Hazard: Experimental Study of the Life Hazard of Combustion Products in Structural Fires, p. 191

Fire Retardant Materials
Toxicological and Environmental Factors Involved in the Selection of Decabromodiphenyl Oxide as a Fire Retardant Chemical, p. 52

Fires
Toxicology of Polymeric Materials Exposed to Heat and Fires, p. 124

Fire System
Application of the Ohio State University Release Rate Apparatus to Combustion Gas Studies, p. 95

Fixed Gas Analyzer
Automatic Gas-Chromatographic Monitoring of Combustion Products, p. 78

Flow System
Application of the Ohio State University Release Rate Apparatus to Combustion Gas Studies, p. 95

Fume Emission
Emission of Smoke and Fumes at Temperatures up to 500 °C, p. 177

Gas-Chromatographic Monitoring
Automatic Gas-Chromatographic Monitoring of Combustion Products, p. 78

Gas Chromatography
The Production of Free Tolylene Diisocyanate (TDI) from the Thermal Decomposition of Flexible Polyurethane Foams, p. 259

Human Exposure
Mass Life Fire Hazard: Experimental Study of the Life Hazard of Combustion Products in Structural Fires, p. 191

Hydrogen Chloride
A Comparison of Combustion Products Obtained from Various Synthetic Polymers, p. 141

Mass Life Fire Hazard
Mass Life Fire Hazard: Experimental Study of the Life Hazard of Combustion Products in Structural Fires, p. 191

Monitoring, Automatic
Automatic Gas-Chromatographic Monitoring of Combustion Products, p. 78

NBS Smoke Chamber
A Comparison of Combustion Products Obtained from Various Synthetic Polymers, p. 141
Automatic Gas-Chromatographic Monitoring of Combustion Products, p. 78

Non-Metallic Materials
Emission of Smoke and Fumes at Temperatures up to 500 °C, p. 177

Octabromobiphenyl
Toxicological and Environmental Factors Involved in the Selection of Decabromodiphenyl Oxide as a Fire Retardant Chemical, p. 52

Ohio State University, Release Rate Apparatus
Application of the Ohio State University Release Rate Apparatus to Combustion Gas Studies, p. 95

Oxygen
Mass Life Fire Hazard: Experimental Study of the Life Hazard of Combustion Products in Structural Fires, p. 191

Pathophysiology, Effects of
The Effects of Carbon Monoxide on Man, p. 167

Physiological Hazards
A Chemical/Mathematical Model for Predicting the Potential Physiological Hazard of a Changing Fire Environment, p. 157

Plastics
Toxicology of Polymeric Materials Exposed to Heat and Fires, p. 124

Plastics, Smouldering
Further Investigations into the Relative Toxicity of Decomposition Products Given Off From Smouldering Plastics, p. 250

Polystyrene
Relative Toxicity of Thermal Decomposition Products of Expanded Polystyrene, p. 236

Polyvinyl Chloride
A Comparison of Combustion Products Obtained from Various Synthetic Polymers, p. 141
Further Investigations into the Relative Toxicity of Decomposition Products Given Off From Smouldering Plastics, p. 250

Pyrolysis
Automatic Gas-Chromatographic Monitoring of Combustion Products, p. 78

Pyrolysis Products
Aspects and Methodology for the Evaluation of Toxicological Parameters During Fire Exposure, p. 4

Reactive Gas Analyzer
Automatic Gas-Chromatographic Monitoring of Combustion Products, p. 78

Release Rate Apparatus
Application of the Ohio State University Release Rate Apparatus to Combustion Gas Studies, p. 95

Smoke
A Comparison of Combustion Products Obtained from Various Synthetic Polymers, p. 141
Aspects and Methodology for the Evaluation of Toxicological Parameters During Fire Exposure, p. 4

Smoke Emission
Emission of Smoke and Fumes at Temperatures up to 500 °C, p. 177

Standard Heating Temperature Curve
Toxicities of Combustion Products, p. 104

Structural Fires
Mass Life Fire Hazard: Experimental Study of the Life Hazard of Combustion Products in Structural Fires, p. 191

Temperature
Aspects and Methodology for the Evaluation of Toxicological Parameters During Fire Exposure, p. 4
Mass Life Fire Hazard: Experimental Study of the Life Hazard of Combustion Products in Structural Fires, p. 191

Temperature Estimation
Emission of Smoke and Fumes at Temperatures up to 500°C, p. 177

Testing
Toxicology of Polymeric Materials Exposed to Heat and Fires, p. 124

Tests, Animal
Further Investigations into the Relative Toxicity of Decomposition Products Given Off From Smouldering Plastics, p. 250
Relative Toxicity of Thermal Decomposition Products of Expanded Polystyrene, p. 236

Thermal Decomposition
The Production of Free Tolylene Diisocyanate (TDI) from the Thermal Decomposition of Flexible Polyurethane Foams, p. 259

Thermal Decomposition Products
Relative Toxicity of Thermal Decomposition Products of Expanded Polystyrene, p. 236

Thermal Degradation
Further Investigations into the Relative Toxicity of Decomposition Products Given Off From Smouldering Plastics, p. 250

Thermodegradation Products
Toxicology of Polymeric Materials Exposed to Heat and Fires, p. 124

Thermoplastic Resins
Toxicological and Environmental Factors Involved in the Selection of Decabromodiphenyl Oxide as a Fire Retardant Chemical, p. 52

Threshold Limit Value (TLV)
The Production of Free Tolylene Diisocyanate (TDI) from the Thermal Decomposition of Flexible Polyurethane Foams, p. 259

Time Curves
Application of the Ohio State University Release Rate Apparatus to Combustion Gas Studies, p. 95

Tolylene Diisocyanate (TDI)
The Production of Free Tolylene Diisocyanate (TDI) from the Ther-

mal Decomposition of Flexible Polyurethane Foams, p. 259

Toxic Gases
Toxicities of Combustion Products, p. 104

Toxicity
A Comparison of Combustion Products Obtained from Various Synthetic Polymers, p. 141
Relative Toxicity of Thermal Decomposition Products of Expanded Polystyrene, p. 236
Further Investigations into the Relative Toxicity of Decomposition Products Given Off From Smouldering Plastics, p. 250

Toxicological Parameters
Aspects and Methodology for the Evaluation of Toxicological Parameters During Fire Exposure, p. 4

Toxicology
Toxicological and Environmental Factors Involved in the Selection of Decabromodiphenyl Oxide as a Fire Retardant Chemical, p. 52
Toxicology of Polymeric Materials Exposed to Heat and Fires, p. 124

Urethane Foams
Further Investigations into the Relative Toxicity of Decomposition Products Given Off From Smouldering Plastics, p. 250

Urethane Foams, Flexible
The Production of Free Tolylene Diisocyanate (TDI) from the Thermal Decomposition of Flexible Polyurethane Foams, p. 259

Yellow Smoke
The Production of Free Tolylene Diisocyanate (TDI) from the Thermal Decomposition of Flexible Polyurethane Foams, p. 259
